

Choose Your Own Health Career FACT SHEET

About Choose Your Own Health Career

www.cyohealthcareer.com.au

The purpose of Choose Your Own (CYO) Health Career is to provide guidance for students that may be considering a career in health but are not sure where to start or whether they have the right skills, capabilities and qualifications.

The CYO website has been designed for high school students, VET Coordinators, Career Advisors, Guidance Officers and parents. It illustrates a range of study and job opportunities which are available within the health sector which can be achieved through a vocational education and training pathway – from entry level roles to more senior positions.

Consultation occurred with various experts from within the health and community sectors in Queensland to identify jobs which are currently in high demand in their particular fields, where skill shortages exist, and those jobs where strong growth is predicted in the next 5-10 years.

The website also includes a number of personal stories outlining individuals who have commenced their health careers via a vocational education pathway. Illustrations of patient journeys also demonstrate some of the different roles involved in a patient's care. Additional information in the form of statistics, infographics and links to resources are also included on the website.
